OBJECTIVES

Seeking a challenging position to utilize my abilities developed through my experience and education, with an opportunity for career growth and to promote the growth of the organization.

EDUCATION

- Master of Computer Application (MCA), IGIT Sarang, Biju Patnaik University of Technology. (9.03 CGPA)
- Bachelor of Science (Comp. Sc.), Govt. Autonomous College Angul, Utkal University. (8.40 CGPA)

TECHNICAL QUALIFICATIONS

- **Flutter, Riverpod, Getx, HTTP client, Dio, Auto Route, Firebase, AWS, mqtt client, stomp client**
- **Spring Boot, FastAPI, JavaScript**
- Microsoft Office (Excel, PowerPoint, Word, Outlook).
- Windows, Linux, Mac.

WORK EXPERIENCE (2 yrs. 4 months)

From Aug' 21 to Nov' 22.

Organization Name: - **Lucidplus IT Solution LLP.**

Project Name: - SmartPay, Ensemble and Symphony.

Designation: - Application Developer.

Team Size: - 4

Roles & Responsibilities: -

- Involved in designing and development of mobile applications.
- Good knowledge in Agile Methodology and SOLID principle.
- Hands on experience in Flutter as well as in Android Kotlin and Python.
- Actively participates in daily standup meetings, and give inputs about the progress of the project.
- Positively participates on Road maps and upcoming projects.

From Nov' 22 to Nov'23.

Organization Name: - **Euphotic Labs (Nosh Robotics).**

Project Name: - Nosh Mobile App, Nosh Subscription (Flutter), Nosh Device App (Android Kotlin).

Designation: - Application Developer.

Team Size: - 6

Roles & Responsibilities: -

- Involved in designing and development of mobile applications.
- Good knowledge in Agile Methodology and SOLID principle.
- Hands on experience in Flutter as well as in Android Kotlin and Python.
- Actively participates in daily standup meetings, and give inputs about the progress of the project.
- Positively participates on Road maps and upcoming projects.

ACTIVITIES UNDERTAKEN

• Project

- **Chat Application. (GitHub Repo: [click here](#))**

This chat application, developed in Java Swing, allows users to send messages and emojis to individual users, selected users, or all users. The application is designed to be user-friendly, requiring users to connect to the server before initiating conversations with other users connected to the same server.

- **Foodu: An online food delivery application in Flutter. (GitHub Repo: [myrestaurant](#), [fooduuser](#))**

Foodu is a mobile application that features two interfaces: one for users and another for restaurants. In the user interface, users can conveniently order food from nearby restaurants. Once a user places an order, the restaurant staff receives a notification regarding the order in the restaurant interface. This allows the restaurant staff to initiate further processing. Foodu is developed using the Flutter framework and incorporates Firebase for seamless functionality.

- **FoodiBizz in Flutter. (GitHub Repo: [click here](#))**

FoodiBizz enables seamless bill generation, storage of billing particulars, and tracking of billing history.

- **SmartPay** a payment app in Flutter.

Smartpay is a payment application which allows users to do transactions from one country to another. As per the user requirements i.e, based on the countries with which he/she would like to make the transactions, we provide three methods. They are as follows: **GCC, RIA, UNISTREAM**. Then we do the necessary calculations by analysing the sender's requirement i.e, the transaction amount and currency of the country. There is nominal amount which is charged by Smartpay for each transaction. Once transaction is done through **JCC payment gateway**, we save the transaction history in database. After that we generate the payment receipt which is shared with the customer and customer can download receipt. Developed with **Flutter Getx** for state management, **http client** for api integration and **JCC payment gateway** for transaction.

- **Ensemble and Symphony** in Flutter.

This project developed only Android and build with Getx, serves as a tool for tracking and managing stocks efficiently. Also admin can track and deploy stocks in different stores.

- **Nosh subscription** in Flutter.

In this project customer is going to buy the NOSH subscription plan which is valid for one week. Post that we will be providing service to the customer as per the items selected. It integrates **Razorpay payment gateway** for secure and user-friendly payment processing. This project developed with **Flutter MVC** architecture, **Riverpod** for state management, **Dio** for api integration, **Auto route** for navigation and many more.

- **Nosh mobile app** in Flutter.

In this project user can select recipe and start cooking remotely. Nosh mobile app developed for both Android and iOS users, employing **Riverpod, Auto Route (Nav 2.0)**, and **MQTT client** for seamless operation.

- **Plugins and open-source contributions**

- **Flutter_razorpay_web** (pub.dev: [click here](#))

I authored **flutter_razorpay_web**, a flutter package for web applications to integrate Razorpay paymentgateway.

- **Razorpay_flutter** (GitHub Repo: [click here](#))

I have contributed to the open-source project Razorpay Flutter. This included implementing a new payment gateway integration module for flutter web.

- **Seminar**

- **Google Firebase with Python.** (GitHub Repo: [click here](#))

Google Firebase is a Google-backed application development software that enables developers to develop **iOS, Android** and **Web apps**. Firebase provides tools for tracking analytics, reporting and fixing app crashes, creating marketing and product experiment.

KEY STRENGTHS

- Complete work in time.
- Learning new things very easily and fast.
- Took the incentive of extra works.
- Responsible to achieve the team target.

COMPETENCIES

- Good team player.
- Committed to deadline and schedule.
- Ability to work under pressure with proper hard work and concentration.
- Good presentation and communication skills.
- Work efficiently diverse groups of people.

PERSONAL DETAILS

- | | | |
|------------------|---|-----------------------|
| • Mother's Name | : | Kalpna Mantri |
| • Date of birth | : | 13-May-1998 |
| • Marital Status | : | Unmarried |
| • Language Known | : | English, Hindi, Odia |
| • Religion | : | Hindu |
| • Nationality | : | Indian |
| • Hobbies | : | Playing Badminton |
| • Category | : | Un-reserved (General) |

DECLARATION

I confirm that the information provided by me is true to the best of my knowledge and belief.
